We believe that Orangeade should be made from FRESH FRUIT, and from a WHOLE Orange and not fortified with extracts. In making Liggett's Orangeade only select fruit is used. By special process the juice of this fruit and the aromatic oil from the orange peel are extracted and by a special formula are incorporated with syrup, delicately flavored and served to you as a delightful, wholesome beverage.

## 'Tarzan of the Apes'

Within the frontiers of a desolate, God-forsaken jungle on the dark, silent coast of Africa this giant white man, reared by an ape mother, roams and kills. He slays the lion and tiger with his bare hands. The jagged fangs at his terrible cry, the massive elephant fears him. The dreadful gorilla and stealthy panther are but babes in his hands. All the terrible beasts of the jungle skulk away at his approach. Then comes the beautiful white girl and "Tarzan of the Apes" takes her to his breast and covers her face with kisses.

This astounding picture will be shown two nights at Princess Theatre, two performances each evening beginning at 7:30 and 9:15.

John Bright has been very busy the past few weeks remodeling his house on Wood street, and is making it modern in every way. As soon as it is finished he will move his family therein.

The boys at the power house are having some time this hot weather filling up the tank. Parties who are keeping their lawn hose running all the time should be careful as the city would be up against it in case of a big fire.

We have had several varieties of weather during the week just passed, cold and warm, dry and wet, calm and wind, thunder and lightning. Storm clouds came up Monday evening which looked exceedingly threatening but which as usually the case, beyond a heavy electrical storm and rain, passed around us and gave the other fellow the worst of it.

It isn't often that a town the size of Yale is represented in a paper like the Scientific American, but in a write-up of the Michigan flax industry in last week's issue we notice an excellent picture of William Foster and George Anderson. They were standing beside a pile of hatched flax, and the picture is so good that they are easily recognized.

Word received from the fishers is to the effect that a few members of the finny tribe have met their fate. Dusty writes that he has caught so many he is ashamed to look a fish in the face. Grant landed a minnow but Frank and our boss have been so busy doing kitchen work that they haven't had time yet to even take a swim, but they would be on the job by Sunday.
